

# ECS Configuration Change Request

<b>CCR No.</b> 96-0536B	<b>Logged Date</b> 6/14/96	<b>Rev.</b> B	<b>Request Type</b> CCR
<b>Priority</b> Routine <input checked="" type="checkbox"/> Urgent <input type="checkbox"/> Emergency <input type="checkbox"/>	<b>Affected Release</b> N/A		<b>Change Class</b> II
<b>Title</b> (description) REVISION TO CCR 96-0536A - RTM - External Interface Class Population and Associated Links			
<b>Documents Affected</b>		<b>Source Nos</b> (RID, NCR, Action Item, GSFC CCR, etc.) or <b>Tech Reference</b>	
<b>RTM Change</b> <input checked="" type="checkbox"/> <b>Start New Baseline</b> <input type="checkbox"/>			
<p><b>Problem</b>                  The original CCR included the initial population of the External Interface Class and associated links. This CCR is a revision to CCR 96-0536A - due to duplicate fields in the Unique Attribute column and extending fields beyond specified length.</p> <p>Also the original CCR specified that associated link tables would accompany the External Interface Class population. This revised CCR does not contain associated link tables - RBR and Components.</p>			
<p><b>Proposed Solution</b>                  This revised CCR provides an update to the original input (CCR-96-0536A) for the initial population of the External Interface Class in RTM. Changes were made during the QA process and are contained within this revision. Primary Changes included:</p> <ol style="list-style-type: none"> <li>1. Correcting duplicate fields in the Unique Attribute column (External Interface Class ID)</li> <li>2. Correcting truncation. The associated link tables are forthcoming in future RTM baseline.</li> </ol>
