TRMM8010	832	<u>TRMM/</u> <u>ECS</u>	<u>ECS/</u> <u>TRMM</u>	TRMM shall manage, and ESDIS shall support, the TRMM end-to-end system testing of the interfaces between ECS and TRMM.	
TRMM8020	831	<u>ECS</u>	<u>TRMM</u>	ESDIS shall support testing, fault isolation, verification, and validation of the interfaces with the TRMM end-to-end ground system.	
TRMM8030	833	<u>TRMM</u>	<u>ECS</u>	The TRMM I&T Program shall develop an overall ground segment integration and test plans and procedures.	
TRMM8031	834	<u>ECS</u>	<u>TRMM</u>	ESDIS shall develop test plans and procedures in support of the development, verification and testing of the interfaces with the TRMM ground system.	
TRMM8040	835	<u>ECS</u>	<u>TRMM</u>	ESDIS shall support TRMM development of test plans and procedures in support of the development, verification and testing of the interfaces between with the TRMM ground system and ECS.	
TRMM8050	837	<u>TRMM</u>	<u>ECS</u>	The TSDIS elements shall support integration and test activities defined in the TRMM overall ground segment integration and test plans and procedures.	
TRMM8060	896	<u>ECS</u>	<u>TRMM</u>	ECS shall archive and distribute TRMM test plans and procedures for the interface between ECS and the TRMM ground system including TSDIS.	
TRMM8071	899	<u>ECS</u>	<u>TRMM</u>	ECS shall support all dataflows and archival and distribution functionality for integration and test with the TRMM ground system.	
TRMM8080	902	<u>ECS</u>	<u>TRMM</u>	ECS shall support TRMM Mission Simulation #1.	
TRMM8081	903	<u>ECS</u>	<u>TRMM</u>	ECS shall support TRMM Mission Simulation #2.	
TRMM8090	906	<u>ECS</u>	<u>TRMM</u>	ECS shall archive and distribute TRMM algorithms and	

				documentation in support of test and integration of interfaces with TSDIS.	
TRMM8100	1059	SDPF <u>TRMM</u>	ECS	ECS shall process CERES and LIS Level 0 and quick-look data sets received from SDPF for early interface testing.	
TRMM8110	912	<u>TRMM</u>	<u>ECS</u>	The TSDIS elements shall be capable of processing simulated TRMM instrument data in support of pre launch checkout of the interfaces with ECS.	
TRMM8120	1060	ECS/SDPF <u>TRMM</u>	SDPF/ECS <u>TRMM</u>	ESDIS shall coordinate provision of LIS and CERES simulated instrument data and instrument data parameters to SDPF in support of integration and test.
