

## Attachment 1: Add Clarification Text to L4

CCR: 97-0071A

Baseline: 12/20/96

L4 id	req_key	rel	req_type	req_status	ver_method	ver_status	CCR	clarification	text
F-DMS-00180	10291	B	functional	approved	inspection	<u>unverified</u>		Telemetry, command, activity and constraint definitions are governed by the formats specified in the FOS PDB Data Format Control Document (DFCD). Command timing and sequencing constraints are performed at the subsystem/instrument level and at the command level. <u>PAS assumes responsibility for s/c and instrument activity level temporal constraints and operational mode transition definitions. DMS remains responsible for all command level constraints.</u>	The constraint definitions shall contain the following information: a. spacecraft constraint definitions b. instrument constraint definitions c. operational mode transition definitions d. command timing and sequencing constraints
F-DMS-00235	11271	B	functional	approved	demo	unverified	96-0952A	<u>PAS has assumed responsibility for this requirement.</u>	The EOC shall provide authorized users the capability to add activity definitions to the PDB.
F-DMS-00240	11272	B	functional	approved	demo	unverified	96-0952A	<u>PAS has assumed responsibility for this requirement.</u>	The EOC shall provide authorized users the capability to delete activity definitions maintained in the PDB.
F-DMS-00245	11293	B	functional	approved	demo	unverified	96-0952A	<u>PAS has assumed responsibility for this requirement.</u>	The EOC shall provide authorized users the capability to modify activity definitions maintained in the PDB.
F-DMS-	10298	B	functional	approved	demo	<u>unverified</u>		PAS assumes	The EOC shall
