

Attachment 1: Modify Level 4s
RTM Baseline: 12/20/96

| L4_id | object key | req_type | release | verification_method | verification_status | clarification | ccr | text |
|-------------|------------|-----------------------------|----------|----------------------|---------------------|---------------|-----|--|
| F-CMD-14310 | 2284 | <u>functional</u> | <u>B</u> | <u>test</u> | <u>unverified</u> | | | The EOC shall be capable of addressing commands to either of the two Command and Telemetry Interface Units (CTIU). |
| F-FOS-00630 | 1023 | <u>functional evolvable</u> | <u>B</u> | <u>demo analysis</u> | <u>unverified</u> | | | (see NASA Inst. IRD, rqmt #N1-0250): The FOS shall be expandable to support the capability to communicate with the DSN and WOTS to schedule support for EOS spacecraft (in accordance with NASA policy and procedures) |

Attachment 2: Break Links
RTM Baseline: 12/20/96

| | |
|------------|-------------|
| RBR | L4 |
| EOSD0015#B | F-FOS-00630 |

Attachment 3: Create RBR
RTM Baseline: 12/20/96

| RBR_id | segment_allocation | rbr req_type | req_category | s_verification_status | s_verification_method | a_verification_status | a_verification_method | ccr | rbr text |
|------------------|--------------------|------------------|--------------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----|---|
| <u>NI-0250#B</u> | <u>FOS</u> | <u>evolvable</u> | <u>mission essential</u> | <u>un-verified</u> | <u>analysis</u> | <u>un-verified</u> | <u>analysis</u> | | <u>ECS shall be expandable to support the capability to communicate with the DSN and WOTS to schedule support for</u> |

| RBR_id | segment_allocation | rbr req_type | req_category | s_verification_status | s_verification_method | a_verification_status | a_verification_method | ccr | rbr text |
|--------|--------------------|--------------|--------------|-----------------------|-----------------------|-----------------------|-----------------------|-----|--|
| | | | | | | | | | <u>EOS spacecraft beyond AM-1 (in accordance with NASA policy and procedures).</u> |

Attachment 4: Add Links (IRD-RBR)
RTM Baseline: 12/20/96

| | |
|----------------|------------------|
| IRD | RBR |
| <u>NI-0250</u> | <u>NI-0250#B</u> |

Attachment 5: Add Links (RBR-L4)
RTM Baseline: 12/20/96

| | |
|------------------|--------------------|
| RBR | L4 |
| <u>NI-0250#B</u> | <u>F-FOS-00630</u> |
