

ECS Configuration Change Request

CCR No. 97-0937 A	Logged Date 6/10/97	Rev. A	Request Type CCR
Priority Routine <input type="checkbox"/> Urgent <input checked="" type="checkbox"/> Emergency <input type="checkbox"/>	Affected Release		Change Class II
Title (description) INGEST Restart Capability			
Documents Affected		Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference AC 96-0561	
RTM Change <input checked="" type="checkbox"/> Start New Baseline <input type="checkbox"/>			
<p>Problem The INGEST Subsystem has a need for a restart capability due to a System Failure which would stop the Ingest process. Other "clean-up" items are needed for the INGEST requirements which include: Requirement wording improvements, Reference Table identification changes, and de-linking INGEST Release C requirements from higher level Release B requirements.</p>			
<p>Proposed Solution Implement four new INGEST Level 4 requirements to accommodate the restart of the INGEST process. Provide various clean-up changes to the INGEST requirements as identified in the Problem statement.</p> <p>Revision A: (Note: Release C orphans created by this CCR will be linked to appropriate Release C RbRs at a later time.) 1) Change EDOS data rates for ingesting in S-INS-61010 & -61025 from 3x to 1.2x. 2) Change references on data rate requirements to show only one table or one source</p>			
Impact Analysis:
